YEARLY PLANNER 2024-25

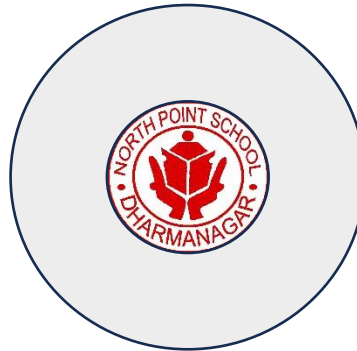

Name:

Class: Roll No.:

Session:

Calender :2024-25

NORTH POINT SCHOOL **Dharmanagar, North Tripura**

Every student must have his/her own Diary and bring it to school every day. Parents are informed that they are to go through the pages of this calendar regularly to know all the activities of the school and be connected to school. Students are advised to read the following

The aims and objectives of running this Institution are not only to promote the educational system by encouraging academic excellence but also to provide ample avenues of nature, all round development of the pupil and to develop and stimulate the creative genius in them so that their personalities develop and ultimately, they become the worthy citizens.

The management team of this institution strongly feels that child education is the only effective way of channelising human intelligence towards the formation of lofty ideals to mould men & women of high character, to develop the sense of integrity and unity and to inspire workers and disciplined pioneers in all walks of life.

With this view in mind intensive academic education is given in various subjects from the earliest stage. Regular moral lesson as exemplified in the character and behaviour pattern of the Great men of the world are imparted to the children to mould their tender hearts with noble thoughts and aspirations.

Furthermore, such moral lessons also help them to grow strong intellectually, morally and spiritually.

The aims and objectives of the institution are precisely defined by the emblem of the school. In the emblem, we find a child in Study is Guided by Two Caring Hands. This symbolises the caring for child education. Also, it indicates that the teaching and non-teaching staffs of the school are in close touch with students and taking the care for their education earnestly. Moreover, the school uses the latest educational aids along with audio-visual facilities. Computer courses for students have been added to the syllabus to make the pupil familiar with the modern way of learning and make them accustomed to science so that they can easily cope with competitive world with the pace of scientific development.
